## Description:

Turn your Windows Mobile Smartphone into a powerful media management system with Mobile Mo™ software. The patented Mobile Mo™ Software allows the easiest way to wirelessly sync your music & playlists between your PC and Windows Mobile Smart Phone on your home Wi-Fi network! Mobile Mo's simple touch screen interface lets you search, play and manage your music in seconds through powerful playlist creation based on keyword, artist, title, album, year, genre, sub genre, mood, favorites & more! MOAEC's software solution uses the same simple interface on the PC & Smartphone designed for touch screens or traditional use.

## Features and Benefits:

- Automatically organize your music libraries **WITHOUT** typing
- Wirelessly sync your music & playlists between your PC & Windows Mobile Smartphone on your home Wi-Fi network!
- Instantly search & play music by keyword, artist, title, album, year, genre, sub genre, mood, favorites & more...
- Download individual songs from your PC to your Windows Mobile Smartphone on your home Wi-Fi network
- Quickly manage & play your PC music library & playlists from your Windows Mobile Smartphone
- Customizable software interface allows you to personalize your experience
- Color coded categories increase ease of use
- No advertisements in software!
